No. 2325

THURSDAY, DECEMBER 2. 1742.

Yesterday arriv'd a Mail from France.

Modena, Nov. 17.

General Pallavicini has ordered a very magnificent Equipage to be made for him at Genoa, which is to be ready against the First of December, on which Day he takes possession of the Government of Modena. A Spanish-Piacentian is lately arrived here, who has brought our Generals a List of all the

Spanish Spies that are in their Quarters, as also another List of such as have deserted to the Spaniards, which will be of great Use. We are preparing Winter-Quarters in this Duchy, in the Parmezan and Mantuan, for the Austrian and Piedmontese Troops, which are excessively fatigued, but still in much better Condition than the Spaniards, who are in want of almost every kind of Necessaries.

Berlin, Dec. 1. His Majesty intends to continue here during the Winter, and nothing will be omitted to make the Court and City as shining and magnificent as possible. Last Night Veldt-Marshal Glisenappe our Governor open'd the first Assembly, at which his Majesty was present; when the following Account was distributed to all the Company under the Title of *The Joys of the Week*, being a List of the Diversions that are to be continued here during the Winter.

On Sunday Evening there will be a Drawing-room at the Queen Mother's, on Monday an Opera, on Tuesday a Drawing-room at the Queen Consort's, on Wednesday a French Comedy, on Thursday Diversions at the Castle, on Friday an Opera, and on Saturday an Assembly, Ball and Masquerade in the City.

Brussels, Dec. 3. We learn from French Flanders, that the Militia have already begun to do Duty, that some Regiments have actually begun their March towards the Mobile. The greatest Part of the Troops which were encamp'd at Dunkirk are gone into Winter-Quarters, and the rest remain in that Place, in order to have an Eye on the Motions of the Queen's Troops and those of her Allies in these Provinces. A Report prevails here, that the Duke of Aremberg will shortly go to the Court of Berlin, in order to put the last Hand to a Negotiation there; and that from thence he will go to Vienna, to receive her Majesty's Commands in relation to the Opening of the Campaign in the Spring.

Extract from the Paris *A-la-main*.

Paris, Dec. 7. The Comptroller General of the Finances went on the 3d of this Month to Port St. Nicholas to see two Blocks of Marble, one of which is 12 Feet broad. They were brought from Havredegrace by two Dutch Flutes, and are to be carved into two Groupes, which are design'd for the Gardens of Marli.

The famous Street Robber Roussel was broke alive on the Wheel on the 6th in the Place de Greve, and his Accomplice Raffiat remains still at the Town-house where such of his Gang as are apprehended are first brought for him to see, and are then conducted to several Prisons, till such time as their Process can be formed in order to bring them to Justice.

A Report has been spread, that the Archduke of Austria was dead; but as this has not hitherto been notified to the Court, we begin to suspect the Truth of it.

This, like many other Pieces of French News, was certainly devised in order to amuse the People, and has this in it too in common with the rest, that it could give Joy only in France, and Grief to all the rest of Europe.

Cardinal Fleury has had a slight Return of his last Illness, but as his Eminence seems to be very well today, we are in hopes this Relapse will have no bad Consequences.

It seems his Health is in a better State (though but a ticklish one) than his Reputation.

The Court has receiv'd within these two Days a Courier from Bohemia (from Bavaria I believe it should be) with Advice, that the Count de Saxe had surprized a Body of Hungarian Troops, and obliged them to abandon their Carriages, Baggage and Bread Wagons. In the last were 100,000 Rations of Bread, and 500 Sacks of Meal. And that the said General had made himself Master of the Town of Deckendorff, the Garrison of which surrend'red Prisoners of War. This Courier said not a Word of any Misfortune that befel the French after this, which obliges us to doubt the Truth of what is reported in some Foreign News-papers that arriv'd Yesterday, wherein there is a formal Account, that after the last-mention'd Action, Count Kevenhuller arr-

tiv'd with a strong Reinforcement, attack'd the French in their Turn, beat them, and retook the Place. It is true the Court may have its Reasons for concealing the latter Part of this News, but still it is probable that some Whisper would have stol'd abroad in case the Report had any Foundation in Truth.

Whatever becomes of this French Piece of Advice, it certainly proves the Falshood of the Report spread here, of Count Kevenhuller's being defeated and killed, which seems to have been a French Tale, invented to balance that before-mentioned.

## L O N D O N.

Private Letters from Dresden dated Dec. 2, N. S. inform us, that his Polish Majesty as Elector of Saxony is on the point of acceding to the Defensive Treaty between their Britannick and Prussian Majesties, and on that account has determin'd to keep up his present Army of 40,000 Men, and to augment the Corps of Ulans, which consists at present of three, to five thousand.

The same Letters had a Confirmation of Prince Lobkowitz having blockaded Prague, and add, that a contagious Distemper makes great Havock in Egra, amongst both the Garrison and the Townsmen; that the Provisions taken by the Austrians will enable them to strengthen both that Place and Prague much sooner than otherwise they could have done, and that it is apprehended neither can possibly hold out this Winter.

From Ratisbon they write, that the Report of an Action between Baron Berenclau and Marshal Seckendorff strongly prevails, and that the latter has been forced to retire into Munich. These Letters are dated Nov. 30, N. S. and agree with Advices from Vienna of the 24th, which say Baron Berenclau had inform'd the Court by an Express, that he had receiv'd a considerable Reinforcement, that it was impracticable for the French to join Seckendorff, and that he was on the point of marching to attack him. The same Letters from Ratisbon say, Marshal Broglie had order'd the French Army to repass the Iser.

It may be depended upon that his Prussian Majesty has dispos'd all things for making an early Campaign in the Spring, when it is not doubted the whole Force of Germany will be exerted against its natural Enemies, in support of its own Freedom.

His Danish Majesty has been pleased to confer the Order of Dannebrog on the Heer Greys, Minister from their High Mightinesses the States General at his Court.

The Reason of contradicting the Report of Cardinal

Tencin's resigning his Archishoprick is, to conceal the Motive to that Resignation, viz. the granting him the Coadjutorship of Paris, which it seems must remain some time longer in *jeopardy*.

It appears by the frequent Audiences of the Prince de Deux-Pont's Minister, of the Cardinal de Fleury, that the French Court are not well satisfied with the Election of the Duke of Holstein to the Prejudice of this Prince, who, it is rumour'd at Paris, was called to the Succession by the Queen of Sweden's Will; which is however for many Reasons improbable, and inconsistent with the old or new Constitution of Sweden.

There are private Letters in Holland, dated from Ghent on the 2d inst. N. S. which mention the Imbarkation of the British Artillery, and that the Hanoverian, Hessian and English Troops were daily expected to begin their March, the Queen of Hungary's Forces to the Number of five or 6000 Men having already taken their Route towards the Sambre and the Meuse.

By a Letter from Genoa we learn, that it is currently reported there, that the King of the Two Sicilies intends to attack the Grand Duchy of Tuscany on one Side, while the Count de Gages attacks it on the other; and that Capt. Fox was sail'd for Leghorn, and was judg'd to have new Instructions in relation to a Visit to Naples, or was like to meet with them at that Port, in case the before-mentioned News prov'd true.

The Anna Catherina, Hilgerloh, from Bremen for London, is lost near Dunkirk, and all the People on board perished.

On Friday last died at York the Rev. John Drake, Prebend of that Cathedral, Rector of Kirk Sleaton, Vicar of Pontefract.

John Jeffries, Esq; Knight of the Shire for Brecon, is appointed Joint Secretary to the Lords Commissioners of the Treasury.

Yesterday his Royal Highness the Duke, attended by General Ilton Commander of the Hanoverian Forces and by several other General Officers, review'd two Battalions of the First Regiment of Foot Guards on the Parade in St. James's Park, who went thro' their Exercises with great Applause.

Last Night about six o'Clock, a Coach belonging to the Royal Family, with four Ladies in it, broke down at the End of St. Martin's-lane in the Strand, by which Accident one of the Ladies received great Damage.

The Right Hon. the House of Peers have adjourn'd to Tuesday next.

Dr. BATEMAN's Original and ONLY TRUE WHOLESALE and RETAIL WAREHOUSE at the PRINTING-OFFICE, facing the South Door of BOW-CHURCH, the LOWER END of the CHURCH-YARD, from CHEAPSIDE, LONDON.

THE DAILY SUCCESS which has constantly attended the Taking Dr. BATEMAN's PATENT DRUGS, in the several Dispensers of Colds, Coughs, Pains in the Breast, Limbs, and Joints; has gain'd them a universal a Character, that few Families care to be without them in their Houses. — Besides the Dispensers above-mentioned, there is no one Medicine, since the Discovery of the Art of Physick, that will give a Speedier Relief and Ease in all Rheumatic Pains, Gout, Stone, Gravel, Cholick, Flux, &c. Innumerable Instances might be given of the Happy Effect thereof, but we choose to refer to a Book, call'd, *an Treatise of the Virtues of Dr. BATEMAN's Patent Drugs*, given GRATIS, at the Warehouse above-said; where Shop-keepers, &c. in any City, Town, or Village, where these Drugs are not already Sold, may be supplied, with good Allowance to sell again, by Directing or sending to the PATENTEE,

BENJAMIN OKELL, WM. and CLERK DICEY.

THE SURPRISING ENCOURAGEMENT, which by constant Success, these most Valuable Drugs have, for upwards of Twenty Years, met with, not only in Great Britain and Ireland, but in all Parts of the West-Indies, and other Foreign Countries; has lately induced several mean and mercenary Pretenders Counterfeits them; and by imitating our Seal, Bill of Dimensions, and Show-Boards, with our Method of Advertising, as near as they can or dare to do, without making them the same; thereby impose their dangerous Compositions upon the many and credulous Shop-keepers both in Town and Country, in the True and Genuine Sort.

The PATENTER and Company therefore, in Gratitude for the universal good Reception they have so long met with, and for the Safety of those who for the future may be deluded using the same, think themselves absolutely obliged to give this necessary Caution;

WHICH THEY CAREFULLY REQUEST MAY BE OBSERVED, THAT the Bottle they Buy is not only Sealed with the Boar's Head, but has also these Words round it, BY THE KING'S PATENT, as in the Margin; and also that the Names of the PATENTER, WM. OKELL, William and Clerk DICEY, be in the Bill of Directions given with each Bottle; without which you may be affir'd it is notorious Counterfeit, and may be of the most dangerous Consequence.

N. B. That these Drugs are also Sold RETAIL (as well as Wholesale) at the Warehouse aforesaid, at One Shilling per Bottle, containing three Dozen.

AN INFALLIBLE REMEDY FOR BROKEN-WINDED HORSES, (And particularly the present Cold so common among them.)

WHICH HAS BEEN PUBLISHED and sold many Years before any Counterfeits in other Forms appeared; and highly commended from one Friend to another. The vast Quantities that have been sold do also verify its Efficacy and Virtues, for it most perfectly cures them, after all others Means have been ineffectual, to a Wonder, in a small time, without Confusion; by attenuating and opening the Globules of the Lungs, dried up, and all the Passages obstructed by Humour dripping thereon, occasion'd by hard Riding, Colds, &c. it cures presently a free Perspiration, renewing its Force, Weight and Length again, as well as ever.

It immediately cures those Horses only a little touch'd in their Wind, as also all continued Coughs, Colds, Wheezing, &c. being excellent in preventing many other Diseases incident unto them, by maintaining, preserving, and continuing a good Breath.

And in a word, by this very Medicine alone, many Horses have been made so perfectly sound, that they have been sold and valued from 10 to 30 or 40 Pounds, which by being Broken-winded, could not before be sold for 3 or 4 Pounds.

It is sold at Mr. Sandwell's Toy-Shop at the Griffin, the Corner of Buckler's-Bury in the Poultry, at 4 s. 6 d. the Qua. Bottle, with Directions for taking it; and no where else in England.
